

# The EnSol Group

EXPERTS IN BAKERY AND SNACK

At The EnSol Group, we're dedicated to one thing and one thing only — developing revenue-generating, engineering solutions for bakery and snack manufacturers, and allied trades. It's what makes us different from other consulting firms — and what makes us the best at what we do.

## The Ingredients of Success

More than 30 years of experience have taught us that there are certain key ingredients that go into every successful project. It's why so many of our clients have worked with us over and over again. Our secret ingredients?

- Top management involved on every project
- Efficient design coupled with operational experience
- Unbiased equipment and supplier recommendations
- Use of appropriate technology
- Cost-effective, turnkey solutions

## Key Client Services

### Project Management

### Consulting

- Facility & Site Evaluation
- Environmental Assessment
- Regulatory Compliance
- Owner Representation Services
- Logistics Planning & Analysis

### Education

## The EnSol Process

Our first step in becoming an effective partner is to listen to your challenges, define your goals, and then lay out the best possible course of action.

**Define** Identify issues, uncover problems, find opportunities, and clarify client needs

**Research** Gather information, question and observe, collaborate and create

**Evaluate** Consider options and possibilities, design and plan, validate and test

**Detail** Formulate, refine concepts, engineer, specify, bid and budget

**Plan** Identify tasks, develop timeline, define responsibilities, schedule and report

**Train** Assess needs, develop program and materials, educate, engage and evaluate

**Execute** Implement plan, manage and evaluate, commission and startup
